

RESEARCH, EVALUATION, & ACCOUNTABILITY

# Pembroke Lakes Elementary

## F.A.S.T. Family Night

# FAST Assessments 2024

- Florida Assessment of Student Thinking, or **FAST**, refers to the new Coordinated Screening and Progress Monitoring (CSPM) System assessments, which are **aligned to the Benchmarks in Excellent Student Thinking (B.E.S.T.) Standards**
- FAST assessments include **VPK through grade 10 English Language Arts (ELA)** and **VPK through grade 8 Mathematics**
- **Renaissance Learning** STAR Early Literacy, Reading and Math will administer grades VPK-2
- **Cambium Assessment, Inc. (CAI)** will administer grades 3-10 FAST
  - Writing **administered** to PLE students this year.
- Science assessments are **not part** of FAST (5<sup>th</sup> Grade Only)

# FAST: District Administration Schedule

Per s. 1008.25(8), F.S., FAST assessments will be **administered three times per year.**

- Test security **MUST** be maintained during all 3 PMs
- The last window for 2023–24 school year is as follows:
  - **PM3\***: K-2 : May 2 ELA                      May 3 Math
  - 3-5: May 16 ELA                     May 21 Math
  - 4-5: April 12 Writing
  - PLE Make-Ups through May 31

\*Student level results are available in the state's Family Portal. Parents can access the Family Portal through Virtual Counselor.

- **Science State Assessment:** May 14  
PLE Make-Ups through May 31

# FAST: VPK-2 Star Assessments via Renaissance

Grade	Subject	PM1	PM2	PM3
Kindergarten	Reading	Star Early Literacy*	Star Early Literacy or Star Reading*	Star Early Literacy or Star Reading*
	Math	Star Math	Star Math	Star Math
Grade 1	Reading	Star Early Literacy or Star Reading*	Star Early Literacy or Star Reading*	Star Reading**
	Math	Star Math	Star Math	Star Math
Grade 2**	Reading	Star Reading*	Star Reading*	Star Reading*
	Math	Star Math	Star Math	Star Math

\*All Kindergarten and Grade 1 students will take the Star Early Literacy for PM1, unless a Grade 1 student scored 852 or higher in the previous year. If a student scores at or above 852 on Star Early Literacy, the student will take Star Reading on subsequent administrations. If a student scores below 852 on Star Reading, the student may take Star Early Literacy for more instructional information.

\*\*Grade 1 students during PM3 and Grade 2 students during all three PM windows must attempt Star Reading. If the student does not pass the practice items after two attempts, the district should administer Star Early Literacy to the student to gain additional instructional information. Additionally, districts may choose to direct schools to administer Star Reading to all Grade 1 students prior to PM3.

\* Audio will be enabled for all students for **Star Math**, regardless of IEP/504 status.

### FAST: K–Grade 2 Administration

- Each test will be administered in **one session**.
- Students take only **one subject test in a day**
- Testing times vary between 20 to 60 minutes
- Tests will be **computer-adaptive**, administered through a secure web browser (**headphones required**)

*\* In accordance with F.S.1008.25 (K-10) and F.S.1002.68 (VPK ), hard copy student results will be provided to parents in an expedited manner.*

# What do FAST STAR results mean?

- Renaissance Star Reading scores represent how students performed on the test compared with the performance **of a nationally representative sample** of students, called the norms group.
- Renaissance has a **Fall, Winter, and Spring** norm group.
- These scores **present a snapshot of achievement** at a specific point in time.
- As with any test, **it is important to remember that many factors can affect a student's test.**
- Renaissance Star Reading test scores give **only one picture of how a student is doing** in school.
- **Percentile Rank (PR)** is a norm-referenced score that provides a measure of a student's reading ability compared to other students in the same grade nationally. The percentile rank score, which ranges from 1 to 99
- **National Benchmarks:** The percentile rank for the student's assessment is used to determine the benchmark range the student falls in at the time they took the assessment. At/Above Benchmark: At/Above 40 PR, On Watch: 25-39 PR, Intervention: 10-24 PR, Urgent Intervention: Below 10 PR

# FAST Grades K-2 Illustration of Statewide Percentiles

## Parent Report for Emma

School **PEMBROKE LAKES ELEMENTARY** Teacher \_\_\_\_\_ Class \_\_\_\_\_ Grade \_\_\_\_\_ Test Date \_\_\_\_\_

### Dear Parent or Guardian of Emma

Emma has taken a Star Reading computer-adaptive reading test. This report summarizes your child's scores on the test. As with any test, many factors can affect a student's scores. It is important to understand that these test scores provide only one picture of how your child is doing in school.

**959**  
Scaled Score

**77**  
Percentile Rank

Emma's Scaled Score is based on the difficulty of questions and the number of correct responses. Scaled Scores in Star Reading in the Unified scale range from 600 to 1400.

**3.3**  
Grade Equivalent

Emma's skills are higher than 77% of students nationally in the same grade. This score is above average. The PR Range indicates that, if Emma had taken the Star Reading test many times, most of his/her scores would likely have been between 69-83.

**3.1**  
Instructional Reading Level

GE scores range from 0 to >12.9. Based on national norms, Emma's reading skills are comparable to those of a typical 3rd grader in the third month of the school year. The score does not necessarily indicate the ability to read independently at this grade level.

**360L - 510L**  
Lexile® Range

IRL is the grade level at which Emma is at least 80% proficient recognizing words and comprehending reading materials. Emma achieved an IRL score of 3.1, meaning he/she is at least 80% proficient at reading third grade level materials.

The Lexile® Range spans reading levels that are appropriately challenging for reading practice. Emma should be selecting books in this range for optimal growth in reading. This range is approximate. Success at any reading level depends on your child's interest and prior knowledge of a book's content.

**65.6**  
Normal Curve Equivalent

Emma's NCE score shows that 65.6% of students in the norms group in the same grade obtained lower scores than Emma did.

# FAST 3-10 Testing Times

- The times below indicate the amount of time that should be provided for students.
- For scheduling purposes, a recommended session length is provided, but **students in grades 3-10 who are still working at the end of that time will be provided until the end of the school day to complete the assessment.**

Grades/Subject	PM 1 and PM 2	PM3*
Grades 3–10 ELA Reading	Up to 90 Minutes	120 Minutes
Grades 3–5 Mathematics	Up to 80 Minutes	100 Minutes
Grades 6–8 Mathematics	Up to 100 Minutes	120 Minutes

\*The PM3 administration is slightly longer than PM1 and PM2 because the assessments contain embedded field test items.

### FAST: Grades 3–10 Content

- Because all FAST assessments are **computer-adaptive**, items may become **progressively harder as students successfully respond** to items, and **easier if students answer more questions incorrectly**
- Each PM event is tied to a blueprint for the **full grade-level content**
- Many of the same computer-based **item types that students are already familiar** with will be used on FAST assessments

*\* In accordance with F.S.1008.25 (K-10), student results will be provided to parents in an expedited manner.*

### FAST: Grades 3–10 Content

- **PM1 and PM2** will be used for **informational purposes** only and will not be used for accountability.
- **PM3** will be a summative assessment used for **accountability purposes**.
- **School year 2023–24** and beyond will be reported with new cut scores **based on the FAST scale**.
- In fall 2023, the state conducted **Standard Setting** and created achievement level cut scores.

## PM3 Scores

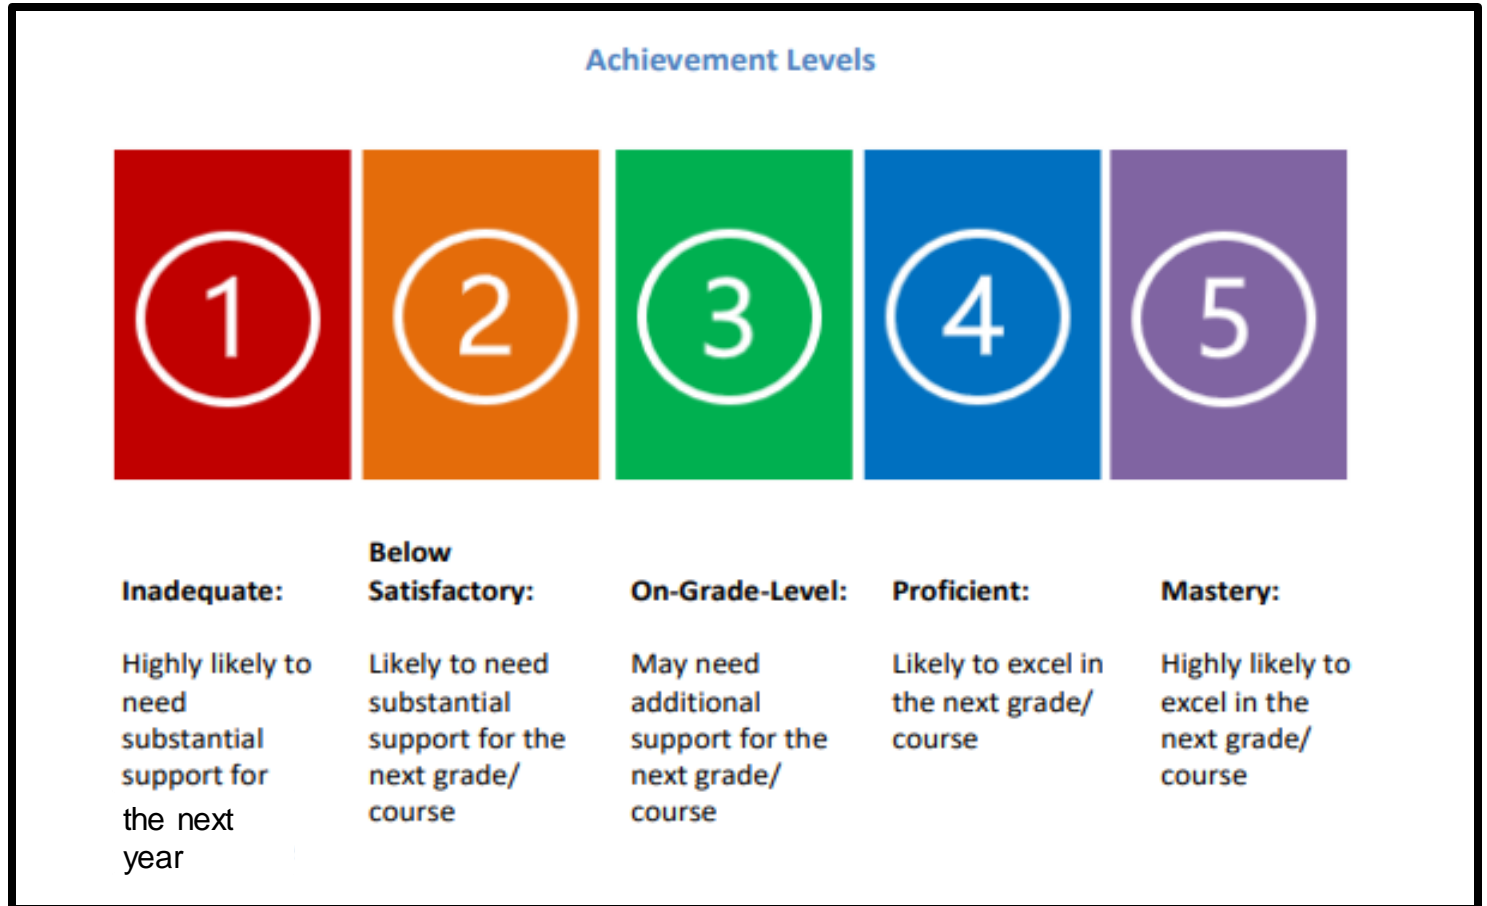

PM3 provides a summative score at the end of the year to measure student mastery of the grade-level content standards.

After the close of each PM window, the FDOE will report percentile ranks at the student level for parents, schools, and districts, as well as comparisons at the school, district, and state level.

## Achievement Levels

- The scales on which students receive scores differ by grade and subject. Achievement levels describe a student's success with the content assessed.
- As required by state law, achievement levels range from 1 to 5, with Level 1 as the lowest and Level 5 as the highest. For all assessments, Level 3 indicates on-grade-level performance

## Achievement Levels

## Scale Score Ranges

FAST English Language Arts										
Grade	Level 1	Level 1 Low	Level 1 Middle	Level 1 High	Level 2	Level 2 Low	Level 2 High	Level 3	Level 4	Level 5

How Did Your Student Do on the Test?

**Score: 327**

**Please note, for the 2022-2023 school year only, student achievement levels are provisional, and are linked to the 2021-2022 reporting scale, as required by Florida law. For 2023-2024 and beyond, scores will be reported on a new scale after the State Board of Education adopts new student achievement expectations in fall of 2023.**

Percentile rank will be reported after the PM window closes. This rank will indicate where your student's performance falls compared to all other students who took the same test in this window.

Please visit the FAST Portal at [www.fast.org](http://www.fast.org) to access additional information and resources, including a Parent Quick Guide that explains each element of this report and what it means for your student.

Students who scored a Level 1 or Level 2 may be eligible to receive free books on a monthly basis through the New Worlds Reading Initiative. Visit <http://newworldsreading.com> for more information.

Students who scored a Level 1 or Level 2 may be eligible for a \$500 reading scholarship to be used for instructional materials, tutoring, and summer or after school educational programs. Visit <http://Stepupforstudents.org/reading> for more information.

MA.4.NSO.1.2

## Benchmark

**MA.4.NSO.1.2** Read and write multi-digit whole numbers from 0 to 1,000,000 using standard form, expanded form and word form.

*Example:* The number two hundred seventy-five thousand eight hundred two written in standard form is 275,802 and in expanded form is  $200,000 + 70,000 + 5,000 + 800 + 2$  or  $(2 \times 100,000) + (7 \times 10,000) + (5 \times 1,000) + (8 \times 100) + (2 \times 1)$ .

## Connecting Benchmarks/Horizontal Alignment

- MA.4.NSO.2.5

## Terms from the K-12 Glossary

- Whole Number

## Vertical Alignment

### Previous Benchmarks

- MA.3.NSO.1.1, MA.3.NSO.1.2

### Next Benchmarks

- MA.5.NSO.1.2

## Purpose and Instructional Strategies

The purpose of this benchmark is for students to read numbers appropriately and to write numbers in all forms and have flexibility with the different forms. This benchmark builds on the work in grade 3 of reading and writing numbers in multiple ways to 10,000 (MA.3.NSO.1.1).

- Students should also have opportunities to explore the idea that 285 could also be 28 *tens plus 5 ones* or 1 *hundred*, 18 *tens* and 5 *ones*.
- Decomposing numbers flexibly helps students reason through multiplication and division strategies. Multiple representations of the number (*MTR.2.1*) allow for opportunities to apply the commutative and associative properties. This will allow students to explain their thinking and show their work using place-value strategies and algorithms, in addition to verifying that their answer is reasonable.

## Common Misconceptions or Errors

- Students may have misconceptions when translating word form to standard form. Numbers like one thousand often do not cause a problem; however, a number like three thousand four can cause problems for students. Many students will understand the 3,000 and the 4 but then instead of placing the 4 in the ones place, students will write the numbers as they hear them, 30,004, not understanding that this number represents more than 3,004.

# Instructional Guides (B1G-M)

## Strategies to Support Tiered Instruction

- Instruction includes opportunities to model and write numbers with a zero in various place values. A place value chart and models such as base-ten blocks or place value disks can be used to help students understand that when the digit in a multi-digit whole number is 0, it represents a 0 of that place value. Extend this understanding to include writing numbers in word and expanded form.
  - For example, in the number 40,607 there are 0 *thousands* and 0 *tens*.

	Thousands Period			Ones Period		
	hundreds	tens	ones	hundreds	tens	ones
	hundred thousand	ten thousand	thousand	hundreds	tens	ones
Standard Form		4	0	6	0	7
Word Form		<i>forty thousand</i>		<i>six hundred</i>		<i>seven</i>
Expanded Form		40,000		600		7
	$40,000 + 600 + 7$					

- For example, in the number 1,002, there are 0 *hundreds* and 0 *tens*.

	Thousands Period			Ones Period		
	hundreds	tens	ones	hundreds	tens	ones
	hundred thousand	ten thousand	thousand	hundreds	tens	ones
Standard Form			1	0	0	2
Place Value Disks						
Word Form			<i>one thousand</i>			<i>two</i>
Expanded Form			1,000			2
	$1,000 + 2$					

# Instructional Guides (B1G-M)

## Instructional Tasks

### Instructional Task 1 (MTR.3.1)

Write each number in standard form and in expanded form.

- Eight hundred two thousand five hundred fifty*
- Twenty thousand three*
- One thousand four hundred fifty – six*
- Seven hundred nineteen thousand two hundred forty – eight*
- Three thousand eighty – one*

## Instructional Items

20 | Page

### Instructional Item 1

Select all the ways to rename the number 2,340.

- 234 tens
- 2,340 ones
- 234 thousands
- 2 hundreds and 34 ones
- 2 thousands and 34 tens
- 2 thousands and 34 ones
- 2 thousands and 34 hundreds

*\*The strategies, tasks and items included in the B1G-M are examples and should not be considered comprehensive.*

# New Worlds Scholarship Accounts Step Up Program

Students in grades K-5

Education savings account (ESA) of \$500 to pay for programs and materials designed to boost reading and math skills.

## Who Is Eligible

Students enrolled in a Florida Public School in grades K-5 who:

- Have a substantial **reading deficiency** or exhibits characteristics of **dyslexia** as identified under s. [1008.25](#)(5)
- Or **scored below a Level 3** on the statewide, standardized **English Language Arts (ELA)** assessment in the prior school year.
- Or have a **substantial deficiency in mathematics** or the characteristics of **dyscalculia** as identified under s. [1008.25](#)(6)
- Or **scored below a Level 3** on the statewide, standardized **Mathematics** assessment in the prior school year.
- An eligible student who is classified as an **English Language Learner** and is enrolled in a program or receiving services that are specifically designed to meet the instructional needs of English Language Learner students shall receive priority.
