

August 2024

3rd Grade Newsletter

1st Quarter

Reading: We are starting our Routines and Procedures using Benchmark Advance. Then we will be transitioning to Non-fiction in Unit 1 exploring how to summarize, text structure, compare and contrast, and poetry. In Unit 2, we will be learning how characters shape stories with fictional texts.

Math: Students are going to learn strategies to show the relationship between multiplication and addition. Then in Topic 2, students will develop relationships, patterns, and strategies to develop an understanding of multiplication.

Science: We are starting the year off by developing an understanding of the practice of science. We will also be learning to classify matter, states of water, forms of energy, and friction.

Social Studies: Students will be learning how maps and other geographic tools help our understanding of social studies and historical event and the geographical elements that make a place or region unique.
