BCPS WELCOMES OUR NEW  
SUPERINTENDENT

## Dr. Vickie L. Cartwright

As superintendent of the nation's sixth-largest school district – with over 270,000 students in 337 schools and approximately 30,000 employees – Broward County Public Schools Superintendent Dr. Vickie L. Cartwright is committed to Educating Today's Students to Succeed in Tomorrow's World.

The School Board of Broward County, Florida, prohibits any policy or procedure which results in discrimination on the basis of age, color, disability, gender identity, gender expression, genetic information, marital status, national origin, race, religion, sex or sexual orientation. The School Board also provides equal access to the Boy Scouts and other designated youth groups. Individuals who wish to file a discrimination and/or harassment complaint may call the Director, Equal Educational Opportunities/ADA Compliance Department & District's Equity Coordinator>Title IX Coordinator at 754-321-2150 or Teletype Machine (TTY) 754-321-2158.

Individuals with disabilities requesting accommodations under the Americans with Disabilities Act Amendments Act of 2008, (ADAAA) may call Equal Educational Opportunities/ADA Compliance Department at 754-321-2150 or Teletype Machine (TTY) 754-321-2158.

## DISTRICT EDUCATIONAL FACILITIES PLAN OVERVIEW FISCAL YEARS 2022-23 THROUGH 2026-27

This District Educational Facilities Plan (DEFP-FY23) covers the five-year period beginning July 1, 2022 and ending June 30, 2027. This plan sustains funding for the SMART Program and other projects that were approved in the DEFP adopted on September 8, 2021.

### **School Safety Funding**

The District is committed to providing a safe and supportive environment and recognize that students and staff need to feel safe and supported in order to perform and achieve at their maximum potential.

As part of the District's strategic goals the District strives to develop approaches which foster safer schools and buildings.

In FY2018-19, SB 7026 provided funding to replace the 1200 Building (Bldg. 12) at Marjory Stoneman Douglas High School. In total, the 2018 Florida Legislature approved \$26.3 million for the District to replace the 1200 building and construct a memorial. The following projects were developed to accomplish this:

- Provide temporary portables – This project is complete
- Build a new permanent classroom building – This project is complete
- Demolish 1200 Building (Bldg 12)
- Construct a memorial

Also, in 2018-19 the District used funding from the State security grant to fund \$6.2 million for security cameras, \$1.8 million on public announcement (PA) systems at schools and \$1.6 million for charter schools. The District also entered into a \$19.8 million capital lease to implement additional PA systems and upgrade the District's radio communications system.

In 2019-20 the District used \$4 million in State security grant to enhance the District's single point of entry and implement additional school security upgrades at District schools and provided \$0.8 million to charter schools.

In FY2020-21 the District used \$3.3 million in State security funding to upgrade school security hardware and provided \$0.7 million to charter schools. In addition, the District is using Federal funding in the E-rate program to further improve its infrastructure to support security cameras.

In FY2021-22 the District identified local funding to continue to upgrade and replace security cameras. The State Security Grant funds provided another \$3.3 million for District schools and \$0.7 million for charter schools to continue upgrading school security hardware.

In FY2022-23 The State security grant funding identified approximately \$1.9 million to fund school hardening needs identified in the Florida Safe School Assessment Tool (FSSAT) completed by District and charter schools.

# Broward County Public Schools

## School-by-School Projects

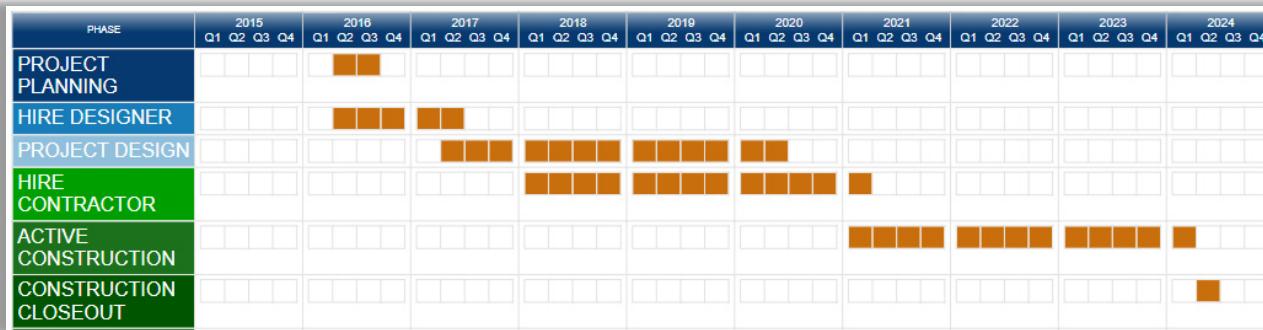

Within the DEFP, there is a schedule of the detailed projects for each school in the District. This is a funding schedule and does not represent the project construction schedules. As of this year's DEFP adoption, nearly all of the projects within the School-by-School schedules were funded prior to fiscal year 2023 (FY23). Therefore, you will not see funding listed in FY23 through FY27 for most of the construction projects in this DEFP. All projects that are shown in either the DEFP section or the SMART Program section are funded as indicated by the Previously Budgeted column.

Project	Original Program Year	Previously Budgeted	SMART Program					Total	Scope
			FY23	FY24	FY25	FY26	FY27		
Safety & Security	FY18	50,000						50,000	Fire Sprinklers
Safety & Security	FY18	107,000						107,000	Safety / Security Upgrade
Renovation	FY18	1,633,000						1,633,000	Building Envelope Improvements (Roof, Window, Ext Wall, etc.)
Renovation	FY18	4,570,000						4,570,000	HVAC Improvements
Renovation	FY18	555,000						555,000	Media Center improvements
Renovation	FY19	100,000						100,000	School Choice Enhancement
		7,015,000	0	0	0	0	0	7,015,000	

In summary, the DEFP is a funding plan and should not be used for construction timelines or schedules. For more information on SMART Program construction schedules visit the District's SMART Website where you can navigate to the construction schedules and view other information regarding specific projects.

<https://bcpssmartfutures.com/>

### **Sample construction schedule from the SMART Website:**

## **Funding for Capital Outlay Needs**

The DEFP-FY23 sustains funding for district-wide maintenance, student and staff computers, school buses and white fleet vehicles. The plan also funds the District's debt service for past and current financings as well as funding for building leases, capital outlay staff and charter school capital outlay.

## Broward County Public Schools

New allocations in this plan include funding for:

- Increase funding to address replacement of School FFE
- Parkway Middle School Phase II design and construction
- Covered walkway at portables for Deerfield Beach Elementary
- Enhancements for general preventative maintenance
- Programs for pilot structural inspection, portable inspections, EHPA inspection as well as Stormwater license renewals
- Coral Glades High School Auditorium (added after TDEFP Board Meeting)

### COPs 2022

At the April 19, 2022, Regular School Board Meeting, the District authorized the issuance of Certificates of Participation (COPs), Series 2022B provides \$166.2 million supplemental project funding for the following:

#### Projects - \$84.2M

- Markham Elementary – Building Replacement
- Stranahan High – Cafeteria Replacement (additional funding)
- Blanche Ely High – Bus Loop Canopy
- Rickards Middle – Building Replacement

The Board approved the above in the Adopted District Educational Facilities Plan (DEFP) on September 8, 2021.

#### Other Needs - \$82.0M

- For SMART Program projects and return capital millage to the unallocated reserve with the guidance and approval of the Board.

### GOB

The voter-approved \$800 million general obligation bonds (GOB) were combined with other non-GOB capital funding for the SMART Program. The first series of the GOB was issued in June 2015, the second in February 2019, the third was issued in February 2021 and the fourth and final series of the GOB was issued in May 2022.

**SMART INVESTMENTS LEAD TO SMART STUDENTS.**

## **SMART Program**

The SMART Program was originally supported with funding from the \$800 million General Obligation Bond (GOB) and \$184 million in other capital outlay funding totaling \$984.1 million. The District recognized shortfalls for the program and set aside funding in a SMART Program Reserve to mitigate these funding risks. As projects are awarded to execute the program these reserve funds are used to offset the additional costs to complete the projects. The SMART program is currently \$1,505.8 million.

The update to the DEFP-FY23 focuses on aligning SMART Program construction funding, realigns \$46 million from the FY24 and FY25 SMART Reserves to fund projects scheduled to be awarded construction contracts in FY23, while balancing other capital outlay needs. This \$46 million is being added to the \$21.5 million already in FY23 to make \$67.5 million funding available for the SMART Program in FY23.

More information about the SMART Program is available on a quarterly basis when the District prepares the quarterly Bond Oversight Committee reports. The websites where this information can be found is:

<http://www.broward.k12.fl.us/boc/index.html> (Bond Oversight Committee website)

<https://bcpssmartfutures.com> (District's SMART Program Updates)

Each quarter after the Bond Oversight Committee meets, a representative from the Committee presents an update to the School Board at a workshop.

## **Fiscal Planning – Long Range Facility Planning**

To ensure that the District uses sound data driven decision-making processes, funding for long-range facility planning is included in this DEFP. The long-range facilities plan will provide a comprehensive view of the District's facility needs and is a critical element in fiscal planning. The District cannot fund all of its facility needs and will need to prioritize limited financial resources to best meet the most critical of those needs. It is important that the District allows the long-range facilities plan to drive decisions about how we spend limited resources.

The District is developing a comprehensive long-range educational facility master plan with an approved \$3.5M allocation in the FY23 ADEFP budget to plan for the facilitation and execution of the master planning and modernization of its public-school buildings.

## Broward County Public Schools

In conjunction with the long range plan the District is also moving forward with a structural assessment and evaluation program funded in this plan at \$500,000 to include:

- Scope of assessment includes building structural systems
- Incorporation of other significant building conditions affecting structural system performance or condition (e.g., building enclosure failure causing deterioration)
- Assessment parameters shall be defined for consistent application and comparison of conditions across a building and across the portfolio
- Relative rating/prioritization system to be established to enable comparison of conditions within a building and across the District portfolio
- Identify target facilities for pilot field assessment in collaboration with the District seeking to provide as representative a sample of the portfolio as possible; anticipate approximately 5 to 10 percent of the buildings will be included in the pilot sample
- Program Manual deliverable detailing assessment scope, methodology, criteria and rating system; for use by the selected consultant for the pilot assessment and by multiple consultants to complete assessment of the remainder of the portfolio

Also in place is the Roof Asset Management Program with an annual appropriation of \$3.0 million that includes the following components:

- Roof surveys and condition assessments
- Roof asset management plan (RAMP)
- 10-year budget plans for the total cost of ownership
- Online database and reporting tools
- Moisture analysis –as needed
- Preventive maintenance and minor repair
- Training for in-house capabilities
- Mentoring to expand local contractor capabilities
- Annual updates to budgets and project scopes
- Emergency leak response management

### **Reserves**

The District sustains reserves to stabilize the SMART Program and other capital projects in the DEFP. These reserves protect ongoing projects over the duration of the SMART Program so that changes in the economic environment and other risks are mitigated. There are SMART reserve funds the Board previously identified to be set aside for the SMART Program. These reserves are shown on the Appropriations page, and details of the approved transactions that impact the reserve funds are shown in the Appendix.

After the fourth and final series of the GOB sold on May 17, 2022, the Board approved adding the cumulative \$133 million GOB premiums to the SMART reserve.

# Broward County Public Schools

## Total SMART Reserve

\$ 225 million	SMART Reserve established FY 2018
\$ 211 million	COPs Series 2020A
\$ 47 million	PMOR Allocation (FY21, FY22, and FY23)
\$ 29 million	SMART Program Needs (Markham ES FY22)
\$ 46 million	SMART Program Needs (FY24 and FY25) → <i>Realigned into FY23</i>
<u>\$ 133 million</u>	Cumulative GOB Premiums (May 17, 2022)
<b>\$ 691 million</b>	

The capital budget also includes an unallocated reserve that can be used for future SMART Program budget impacts and other Board approved needs. **Additional allocations to the SMART Program require the Board's approval**, and all future amounts are subject to change based on economic conditions and the results of annual legislative action.

## Completed Projects

A list of completed projects are shown in the school-by-school listing and the Appendix. Completed projects are those projects that have had financial activity and the scope of the projects is done. There may be some additional financial activity on these projects as the final payments are made and all the purchase orders are closed out. Any remaining balances for SMART Program projects will be returned to the SMART Program reserve so that when the Board awards projects these funds can be used to supplement the program. Remaining balances for completed projects that are not in the SMART Program will be returned to the unallocated reserve until the Board takes action to re-prioritize the funds for other District needs.

## Appendices

The Appendix section includes other information that is required by Section 1013.35, Florida Statutes, and the Citizens Concerned about our Children (CCC) Settlement Agreement to be included in the DEFP. The appendix schedules include: the Portable Transition Plan, the Public School Concurrency Plan (including the Level of Service Plan), the Allocation of Resources -10 and 20 Year Plan, the Reserve Activity Report, and a detailed list of the completed projects.

# Broward County Public Schools

## Supporting the District's Strategic Plan

**Our Vision:** *Educating today's students to succeed in tomorrow's world.*

**Our Mission:** *Educate all students to reach their highest potential.*

**Our Goals:**

- *High-Quality Instruction*
- *Safe & Supportive Environment*
- *Effective Communication*

The DEFP is the District's five-year capital improvement plan. The purpose of the District Educational Facilities Plan is to keep the School Board and the public fully informed on the District's capital funding plan to meet the essential needs of students. The DEFP contains a detailed funding plan for each of the District schools and shows how the capital funds support the detailed plan as well as other district-wide funding that supports the District's strategic goals.

The process of Adopting the DEFP provides the public with an opportunity to provide input into the plan and meets the District's goal of ***Effective Communication***. Funding for the SMART Program, other capital construction projects, technology and academic equipment, buses and support vehicles provides the means to create and maintain a ***Safe & Supportive Environment*** and allows the District's educational professionals to have the appropriate classroom environments to provide ***High Quality Instruction*** to over 270,000 students.

# Broward County Public Schools

## Glossary of Terms

### **1. General Obligation Bond (GOB)**

On November 4, 2014, the voters of Broward County authorized up to \$800 million in general obligation bonds to fund the Broward County Public Schools SMART Program. The four issuances of the bonds were timed to align with the needs of the projects in the SMART Program. The first series of the GOB was issued in June 2015, the second in February 2019, the third was issued in February 2021 and the fourth and final was issued in May 2022.

### **2. SMART Program**

Safety, Music & Art, Athletics, Renovations and Technology {SMART}, is an ongoing capital improvement program to address infrastructure and equipment needs of Broward County Public Schools. Funding sources include the \$800 million GOB and other capital funding.

### **3. Program Years (SMART)**

Program Years refer to the years that funding is identified for SMART Program projects. Included in this DEFP-FY23 update, the program years refer to:

- Program Year 1 = Fiscal Year 2015
- Program Year 2 = Fiscal Year 2016
- Program Year 3 = Fiscal Year 2017
- Program Year 4 = Fiscal Year 2018
- Program Year 5 = Fiscal Year 2019
- Program Year 6 = Fiscal Year 2020
- Program Year 7 = Fiscal Year 2021
- Program Year 8 = Fiscal Year 2022
- Program Year 9 = Fiscal Year 2023
- Program Year 10 = Fiscal Year 2024
- Program Year 11 = Fiscal Year 2025
- Program Year 12 = Fiscal Year 2026
- Program Year 13 = Fiscal Year 2027

### **4. Adopted District Educational Facilities Plan FY22 (DEFP-FY22)**

The District Educational Facilities Plan (DEFP) was last adopted by the School Board on September 08, 2021. The DEFP is a five-year capital improvement plan and budget planning document that is revised annually and adopted by the School Board. The first year of the DEFP is incorporated into the District's capital budget. The DEFP and the budget is a projection of revenues and a plan to appropriate funding for anticipated expenditures. The DEFP includes revenues from the GOB and appropriations for the SMART Program projects.

### **5. District Educational Facilities Plan (DEFP-FY23)**

An update to the DEFP-FY22 that includes revised revenue projections and updated appropriations. The update also incorporates amended project budgets that were approved by the School Board during the previous fiscal year.

## Broward County Public Schools

### **6. Fiscal Years**

The District's Fiscal Year begins on July 1 each year and ends on June 30 in the following calendar year. For example, the fiscal year beginning July 1, 2022 and ending June 30, 2023 is referred to as "Fiscal Year 2023," "Fiscal Year 23," or "FY23".

### **7. SMART Website**

The District's SMART Program website contains information on the SMART Program, links to specific project information and links to the SMART Program Bond Oversight Committee website.

<https://www.BCPSSMARTFutures.com/>

### **8. School Choice Enhancement**

School Choice Enhancement funding (\$100,000) was allocated to every District school for a school-based, school-choice project to improve the condition of an instructional or educational space at the school. The District's Office of Capital Programs (Facilities Dept.) is working with schools to develop and execute a project that meets each school's needs within the \$100,000 budget allocation.

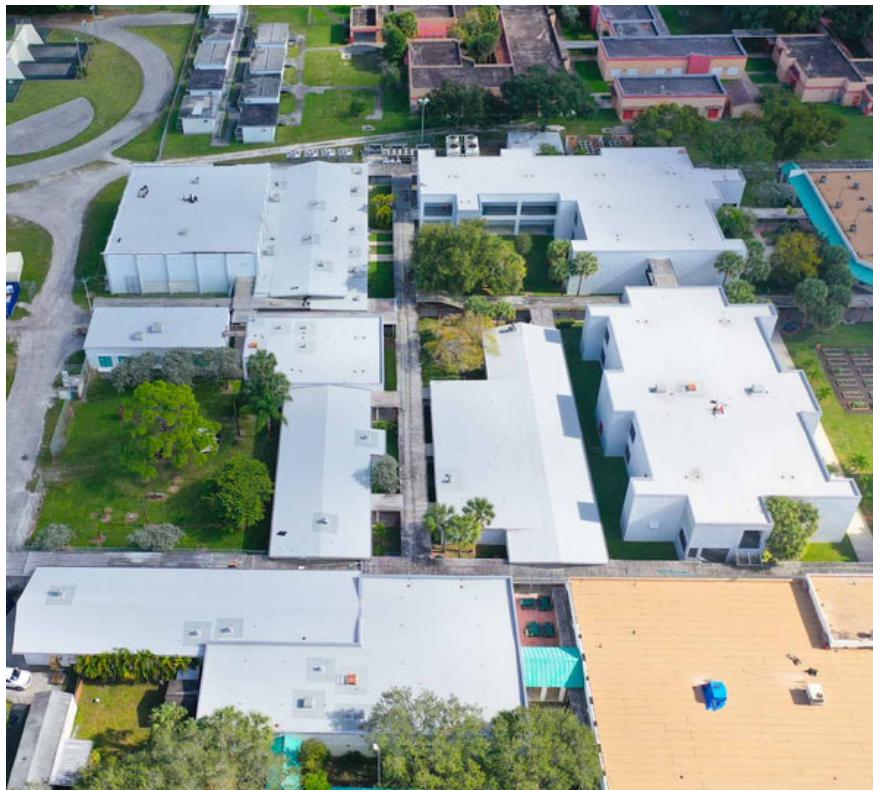

### **9. Districtwide Funding**

Funding/project(s) for locations other than schools, or projects/programs that effect larger populations of schools.

### **10. Building Replacement**

Requires additional analysis by the Design Professional hired to determine if a building is in a condition that would warrant replacement or if the building is sufficiently structurally sound that would make improvements appropriate.

## Portable Transition Plan

### Part I: Inspection, Disposition, Demolition

Currently, Broward County Public Schools (BCPS) has a total of 1,211 portables in its inventory. At this time, 81.50% of the portables are designated for instructional use in Elementary, Middle, and High Schools; 11.07% are designated for instructional use in Adult Educational Centers, Technical Colleges, and Alternative Centers; 6.52% are designated for administrative use; and 0.91% are located in other sites (Juvenile Detention Center).

Per feedback received from the Florida Department of Education (FDOE), portables deemed as Fail Standards<sup>1</sup> or Unsatisfactory<sup>2</sup> can be demolished and cannot be used for instructional purposes. Additionally, the portables should be declared as surplus by The School Board of Broward County, Florida (SBBC) prior to their demolition. Table 1 below depicts the distribution and conditions of the portables.

**Table 1 - Portable Conditions – Fiscal Year 2022-2023**

Facility	Total Portables Remaining in the District's Inventory	Total Portables in Satisfactory Condition	Total Portables in Unsatisfactory Condition/ Failed Standards <sup>(1)</sup> - <sup>(2)</sup>	Total Unsatisfactory Portables Allocated for Disposition in FY 2021-2022	Total Unsatisfactory Portables Listed for Potential Funding and Disposition in FY 2022-2023 <sup>(1)</sup> - <sup>(2)</sup>	Total Portables Demolished/ Disposed <sup>(3)</sup>	Total Portables Use Percentage
Elementary	394	392	2	0	0	183	32.54%
Middle	312	292	20	20	0	199	25.76%
High	281	280	1	0	0	260	23.20%
Centers	134	134	0	0	0	13	11.07%
Administration	79	37	42	0	0	201	6.52%
Other Sites	11	11	0	0	0	0	0.91%
<b>TOTAL</b>	<b>1,211</b>	<b>1,146</b>	<b>65</b>	<b>20</b>	<b>*\$400,000</b>	<b>856</b>	<b>100%</b>

<sup>1</sup>Portables were deemed to failed standards by the Florida Department of Education (FDOE) because these portables did not meet some of the FDOE 17 criteria. Therefore, such portables were not affixed with the required DCA (Department of Community Affairs) insignia by the FDOE.

<sup>2</sup>Portables deemed unsatisfactory: Are typically due to compromising effects on the structural integrity, or excessive physical deterioration of the portable facility.

<sup>3</sup>Portables demolished/disposed from FY 2013-14 through FY 2017-18 that were approved by the School Board at regular School Board meetings on December 9, 2014, May 19, 2015, September 7, 2016 and October 12 2021. Additionally, FY 2021-22 (35) Portables were approved by the School Board at Special School Board Meeting on September 8, 2021.

\* NOTE: Funding is being requested for FY 2022-2023 in the amount of \$400,000 as an earmark to address the portable demolitions outlined in the plan that is to be brought to the School Board within FY 2022-2023 for approval.

As depicted in Table 1, of the 1,211 portables in the BCPS inventory, 20 portables are currently deemed as unsatisfactory, and the portables are located at Ramblewood Middle School. Additionally, funding to demolish the 20 portables were allocated at the March 15, 2022, Regular School Board Meeting via Agenda Item No. JJ-28.

It should be noted that the 35 portables which were funded/slated for disposition in Fiscal Year (FY) 2021/2022 District Educational Facilities Plan (DEFP), have been demolished by the Physical Plant Operations (PPO) Department.

Also, As depicted in Table 1 the 65 portables that are currently deemed as unsatisfactory/failed standards, consist of 42 portables which are located at BCPS administrative sites, 2 are located at Quiet Waters Elementary School and will remain on the campus due to the technology cabling infrastructure located within the portables, and 1 portable is located at the Boyd Anderson High School campus, and is being utilized by the JROTC.

The BCPS Portable Transition Plan (PTP) - Five (5) Year Demolition process is based on the annual inspection of portables located at schools and administrative sites by the BCPS Building Department. Based on the findings of the inspection, the total number of portables that are deemed unsatisfactory due to the compromising effects on the structural integrity or excessive physical deterioration of the portables, will be initially distributed, as indicated by the percentages depicted in Step 1, during the planning process for each upcoming District Educational Facility Plan (DEFP). Subsequently, these portables would be recommended and slated for demolition in the five (5) year period of each effective DEFP. Thereafter, Step 2 of the process would entail portables recommended and slated for demolition to be listed and distributed in percentages, as depicted below, in the Five (5) Year Demolition Plan, based on the following criteria:

#### **Criteria for the Selection of Portables Slated for Demolition**

Identify the portables that are deemed unsatisfactory by the Building Department and record the same as unsatisfactory in the Florida Inventory of School Houses (FISH).

1. Identify and select school sites that are under enrolled ( $\leq 75\%$ ), and portables located at these school sites will have priority in the allocation of funding for demolition, for each year of the Five (5) Year Demolition Plan.
2. The number of portables that will be scheduled for demolition in each year of the Five (5) Year Demolition Plan shall be distributed as follows:
  - a. Seventy percent (70%) would be portables located at school sites, and thirty percent (30%) would be portables located at administrative sites.
3. Based on the above criteria, ONLY portables listed in year 1 of the Five (5) Year Demolition Plan will be recommended for funding and demolition. Therefore, the Five (5) Year Demolition Plan shall reflect portables slated for demolition, each five (5) year cycle of an effective DEFP.

**Table 2 - Portable Disposition Criteria**

STEP 1	INITIAL PORTABLE DISPOSITION DISTRIBUTION LIST				
	YEAR 1	YEAR 2	YEAR 3	YEAR 4	YEAR 5
Total portables identified as unsatisfactory and meet criteria (100%)	20%	20%	20%	20%	20%
	↓	↓	↓	↓	↓
STEP 2	LIST OF PORTABLES RECOMMENDED FOR FUNDING AND DISPOSITION				
Located at School Sites (Enrollment $\leq 75\%$ )	70%	70%	70%	70%	70%
Located at Administrative Sites	30%	30%	30%	30%	30%

It should be noted that the intent of the above narrative regarding the Five (5) Year Demolition Plan process, was to commence implementing the delineated process in this FY 2022/2023 DEFP. However, the Building Department is still in the process of inspecting the 1,211 portables in the BCPS inventory, and thereafter, subsequently identifying and deeming pertinent portables as unsatisfactory for inclusion in this DEFP.

Additionally, the BCPS established workflow regarding the Building Department's annual inspection of portables, entails that upon the Building Department deeming portables as unsatisfactory, shall transmit its findings and related data to the FDOE for review, and also recommend for the FDOE to affirm such portables as unsatisfactory. Thereafter, upon such FDOE review and approval, the Building Department would proceed and provide the Facility Planning & Real Estate (FP&RE) Department with the list of portables that have been deemed as unsatisfactory, to enable the FP&RE Department to conduct subsequent due diligence in incorporating the information (including the list of portables and related demolition cost into the applicable DEFP).

Staff is still finalizing the recommendation for portable demolition using this process and the criteria mentioned above. When this recommendation is finalized, an item will be brought to the Board for approval so that the Board can approve the plan to surplus those buildings and demolish portables.

Funding is being requested this year (FY23) in the amount of \$400,000 as an earmark to address the portable demolitions outlined in the PTP that is to be brought forward to the School Board for approval. These funds will not be spent until the Board has approved that updated plan. This Funding will not be used for the demolition of the 42 portables, depicted in Table 1, as unsatisfactory and currently located at BCPS Administrative sites.

On an ongoing basis and continually in the Five (5) Year cycle, BCPS staff will continue to work with school principals and staff to examine and process additional portables that could be deemed as unsatisfactory, be qualified to be declared as surplus, and be subsequently demolished when funding is allocated. Upon demolition of these portables, the data regarding portables in the BCPS inventory will be updated in the appropriate databases such as, but not limited to, the BCPS' Planning Tool for School Enrollment and Capacity.

## Portable Transition Plan

### Part II: Construction of Covered Walkways at Identified Schools

The Portable Transition Plan is called for in the State Requirements for Educational Facilities (SREF) and requires the plan should address covered walkways for qualified portables at school sites. To comply with this requirement, the criteria depicted below was developed to enable the selection of schools with portables on their campuses that may qualify for funding to construct covered walkways.

The primary purpose of the criteria contained in this DEFP, is to ensure that the subject portables are still needed to be utilized for educational purposes; and therefore, for prudence, serve as a guide in the selection of portables that should be funded for covered walkways. A brief explanation of the criteria is as follows:

#### Criteria for the selection of the schools

##### 1. Identify portables needed for instructional purposes (Completed)

The identification of these portables is determined during the portable inspection process depicted in the Broward County Public Schools (BCPS) established Annual Portable Utilization Plan, whereby the Building Department inspects and determines the condition of all BCPS portables, especially those portables needed for instructional purposes.

##### 2. Examination of the five-year student enrollment projections and Level of Service Standard (LOS) (Completed)

The review of the Level of Service Standard and the projected student enrollment data are conducted because this data is to ensure the availability of viable capacity at the school to enable student instruction, which the portables are a component.

##### 3. Determination of the youngest portables at the school site or those purchased after 1998 (Completed)

This criteria aligns with applicable state statute, which is to ensure that the selected covered walkways are not installed on portables that are older than 20 years.

##### 4. The portables are arranged in a cluster type setting (Completed)

This criteria is to ensure that it is more cost effective to install a covered walkway on portables that are arranged in a large cluster setting.

This analysis determined that the schools listed below met the above selection criteria and as such, qualify for the construction of covered walkways at the campuses.

**Table 3 – List of Schools Slated for Covered Walkways**

	Schools	Number of Portables	Estimated Cost <sup>1</sup>	Anticipated Completion Date
<b>Approved in FY 2015/16</b>	Manatee Bay Elementary	5	Completed	Completed
	North Andrew's Garden Elementary	6	Completed	Completed
<b>Approved in FY 2016/17</b>	Westglades Middle	16	Completed	Completed
<b>Approved in FY 2018/19</b>	Gator Run Elementary	16	Completed	Completed
<b>Approved in FY 2019/20</b>	Tequesta Trace Middle*	3	in progress	10/20/2022
<b>Approved in FY 2020/21</b>	Western High**	20	in progress	2/23/2023
<b>Year 1</b>	Deerfield Beach Elementary	3	<b>\$362,600</b>	
<b>Year 2<sup>2</sup></b>	Tradewinds Elementary	8		
<b>Year 3<sup>2</sup></b>	Glades Middle	8		
<b>Year 4<sup>2</sup></b>	Coconut Creek High	11		
<b>Year 5<sup>2</sup></b>	Castle Hill Elementary	12		

<sup>1</sup>Covered Walkway estimated cost provided by the Office of Capital Programs as of 3/23/2022.

<sup>2</sup>Year 2 through Year 5 may change based on annual enrollment projections.

\* Project is still in progress. Currently anticipated that the Office of Capital Programs will complete the construction of the covered walkway by October 20, 2022. (Source: Office of Capital Programs).

\*\* Project is still in progress. Currently anticipated that the Office of Capital Programs will complete the construction of the covered walkway by February 23, 2023. (Source: E-Builder).

The selection of Deerfield Beach Elementary School was based on the criteria cited herein, which included the analysis of the projected enrollment utilizing the District's five-year student enrollment projection and the gross capacity for the School for school year 2022/2023. The conclusion of the analysis indicated that Deerfield Beach Elementary School has the most need for a covered walkway in FY 2022/2023. Therefore, the funds needed and requested for the construction of the covered walkway is \$362,600. The Office of Facilities and Construction (OFC) will commence the necessary due diligence and construction process for the covered walkway as soon as the funds are approved in the FY 2022/2023 DEFP. Thereafter, the OFC will initiate the vendor and subject building permit processes to enable the construction of the covered walkway. The goal is to complete the covered walkways by June 30, 2023.

Furthermore, it should be noted that the OFC is anticipated to complete the construction of the covered walkway at Tequesta Trace Middle School by October 20, 2022 (Source: Office of Capital Programs), and at Western High School by February 23, 2023, (Source: E-Builder).

## DISTRICT 6 HIGHLIGHTS

## PUBLIC SCHOOL CONCURRENCY

### Background

In Florida state law, concurrency means the implementation of a system whereby the provision of public facilities and services that are needed to serve proposed development is available at the time the impact of the development occurs. In Broward County, residential development cannot be approved until a determination from the School District has been issued, which indicates there is sufficient school capacity available to serve the proposed development. This requirement is codified in the Third Amended and Restated Interlocal Agreement for Public School Facility Planning (TRILA), a contract between the School Board, Broward County, and 27 municipalities, which establishes a public school concurrency management system. The purpose of this system is to create a mechanism which provides for the coordination of planning among the school district, county, and municipalities to meet the purposes of concurrency. In compliance with amended School Board Policy 1161 (which delineates the School District's public school concurrency management system) and which became effective on January 15, 2008, the School District commenced the implementation of public school concurrency on February 1, 2008. Subsequently, certain municipalities (currently 27) in Broward County adopted public school concurrency (PSC) into their comprehensive plans.

### Comprehensive Plan

For information purposes, a comprehensive plan prescribes the principles, guidelines, and standards for the orderly and balanced future economic, social, physical, environmental, and fiscal development of a jurisdiction (such as a county or municipality). Each comprehensive plan must contain several "elements" that address key issues such as land use, capital improvements, sewer and solid waste, potable water, housing, and intergovernmental coordination. Also, each county and municipality that chooses to implement PSC must add a public school facilities element to their comprehensive plan, and amend any other existing elements that relate to the school facilities element.

Because PSC is implemented district-wide, the public school facilities element must be consistent with those adopted by the other local governments within the county and must be based upon data and analyses that address, among other items, how the Level of Service (LOS) Standard will be achieved and maintained. The element also contains goals which establish the long-term end toward which public school programs and activities are ultimately directed, contains measurable objectives for each goal that mark progress toward the goal, and contains policies for each objective that establish the way programs and activities will be conducted to achieve the goal.

### Policy 1161 and Land Development Regulations

The School Board does not adopt a comprehensive plan; therefore, the implementation authority for PSC is established in School Board Growth Management Policy 1161, and for the Municipalities and Broward County, through the land development regulations in their respective land development codes. There, the details of the development review process are articulated based on the mutually agreed upon parameters for PSC as contained in the TRILA.

## PUBLIC SCHOOL CONCURRENCY (CONT'D)

### Level of Service Standard

To assure the uniform district-wide implementation of PSC and in compliance with Section 163.3174, Florida Statutes (FS), the TRILA requires the establishment and adoption of an LOS, which is further codified in the Public School Facilities Element and School Board Policy 1161. Therefore, the LOS means the standard at which a public school facility is expected to operate based upon the “capacity of the facility”. Such LOS, upon adoption and codified as the adopted LOS, in the municipal/county land development regulation and School Board Policy 1161, is then established and recognized as the operating LOS for PSC purposes.

For informational purposes, Permanent Capacity is the total number of student stations contained in structures built with fixed foundations and having permanently attached walls, roofs, and floors, multiplied by a utilization rate specific to the level and type of school. The permanent capacity percentage for a school is calculated by dividing the current/projected student enrollment number by its permanent capacity number.

Furthermore, Gross Capacity is the total capacity of designated permanent and relocatable (portable) capacity at a school site. The gross capacity percentage for a school is calculated by dividing the current/projected student enrollment number by its gross capacity number.

The LOS Standard was established jointly in the TRILA by the School Board, Broward County and 27 Municipalities within the County in 2008. The initial adopted LOS Standard was 110% permanent Florida Inventory of School Houses (FISH) capacity. However, since the LOS was first adopted in 2008 at 110% of permanent FISH capacity, the adopted LOS Standard has been amended twice. In 2010, the then effective Interlocal Agreement (ILA) was amended (Second Amended ILA) to change the adopted LOS Standard from 110% permanent FISH capacity to 100% gross FISH capacity.

Under the current TRILA, which became effective in 2018, the adopted LOS Standard is defined as follows: “the higher of 110% permanent FISH capacity or 100% gross capacity.” This concept, known as the Alternate LOS Concept, blends both LOS standards previously adopted in the ILA and enables schools to benefit by avoiding potential school boundary changes to meet the LOS requirements of public school concurrency when the schools have available relocatable capacity onsite. The Alternate LOS Concept is further explained below.

**School Type A:** A bounded elementary, middle or high school that has the equivalent of at least 10% of its permanent Florida Inventory of School Houses (FISH) capacity available onsite in relocatables. The LOS for School Type A shall be 100% gross capacity (including relocatables).

**School Type B:** A bounded elementary, middle or high school that has less than the equivalent of 10% of its permanent FISH capacity available onsite in relocatables. The LOS for School Type B shall be 110% permanent FISH capacity.

## PUBLIC SCHOOL CONCURRENCY (CONT'D)

### The Role of the Adopted Five-Year District Educational Facilities Plan

Under PSC, the School District must create a five-year Capital Improvement Plan (CIP) regarding the provision of needed capacity (classroom additions and/or improvements to existing schools, new schools) to meet the adopted LOS Standard. This plan must show where and when capacity additions will be built and must show exactly where the money to build the additions or new schools will come from.

The five-year CIP therefore, must contain enough capacity improvements necessitated to achieve and maintain the adopted LOS Standard by at least the fifth year of the CIP. In Broward County, the School Board, Broward County and pertinent municipalities have agreed that the Five-Year District Educational Facilities Plan (DEFP) shall serve as the CIP and shall be adopted into the Broward County's and pertinent municipalities' comprehensive plans.

The TRILA requires the District to annually transmit the Tentative DEFP to local governments for review to determine consistency of the Tentative DEFP with pertinent local government comprehensive plans. Subsequently, the TRILA requires that each year after formal adoption of the DEFP by the School Board, the District will transmit the DEFP to the County and municipalities for adoption and incorporation into their respective comprehensive plans.

### Level of Service Plan

The LOS Plan is a matrix titled "Broward County Public Schools Level of Service Plan for Capital Planning" contained herein, to demonstrate each elementary, middle and high school's ability to meet the adopted LOS Standard during each DEFP period by calculating the projected enrollment divided by the LOS capacity of the facility. The LOS Plan therefore shows the projected enrollment for each of the five years covered by the DEFP, divided by the LOS capacity of each school. To be deemed a financially feasible plan, the DEFP must demonstrate that the adopted LOS Standard can be achieved and maintained at each (bounded) elementary, middle and high school over the five-year period.

## PUBLIC SCHOOL CONCURRENCY (CONT'D)

The LOS maps that accompany the LOS Plan depict the LOS status of the school in the fifth year of the DEFP, and any school boundaries with a projected LOS capacity deficit is indicated in red with a negative number indicating the shortfall of student stations needed to meet the LOS, and any school with a projected LOS surplus is indicated in green with a positive number indicating the school meets the adopted LOS in the fifth year of the DEFP.

Per the TRILA and School Board policy 1161, consistent with PSC requirements, Broward County Public School (BCPS) staff issues School Capacity Availability Determination (SCAD) report for proposed development in Broward County. The report is transmitted to the pertinent local government. Based on the information contained in the SCAD report, a local government may approve a development if adequate public school facilities (contained within the first three (3) years of the DEFP) will be in place or under actual construction within three (3) years after the development receives final approval. Subsequently, if the SCAD report indicates adequate public school facilities are not available, and the SCAD report indicates that capacity is not available, then a developer may pay, if accepted by the School Board, the cost of the improvement (proportionate to the demand that the project is generating, otherwise known as proportionate share mitigation) needed to satisfy the demand created by that development, and if accepted by the School Board, the development may receive approval by the local government. Thereafter, upon acceptance of the “proportionate share mitigation” by the School Board, the School Board must amend the Five-Year DEFP to incorporate that improvement within the first three (3) years of the Plan, and provide the capacity associated with the improvement within three years after the proposed development receives final approval from the local government.

### **Long Term Plan**

The TRILA requires the School District to review proposed residential developments regarding changes to future land use comprehensive plans and rezoning applications that may impact public schools, against a long term (ten year) planning horizon. Also, the law requires school districts to create a long-term plan to enable such analysis and planning for future needed public facilities (capacity additions or new school). To meet this requirement, the DEFP includes capacity improvements, if necessitated, anticipated over the long-term planning horizon (10 years).

## DISTRICT 7 HIGHLIGHTS

# **Level of Service (LOS) at Higher of 100% Gross Capacity or 110% of Permanent Capacity 2026-27 2022-2023 Elementary School Boundaries**

## **ALLOCATION OF RESOURCES**

### **(CCC Settlement Agreement – Condition #8)**

The Citizens Concerned about our Children (CCC) Settlement Agreement specifies nine conditions, each of which is intended to ensure that diversity and equity is promoted within Broward County Public Schools. Under each condition of the Agreement, the BCPS with the cooperation of the District's Diversity Committee established standards to address the terms of the Agreement. Condition #8 of the CCC Settlement with the School District requires that the five-year capital plan and subsequent five-year capital plans be developed using a structured public analysis.

The District's needs are far beyond what is allocated in this plan but an effort was made to provide resources to improve existing schools to achieve the District's mission of educating all students to reach their highest potential. This five-year capital plan is an equitable funding plan. All of the dollars allocated in the plan are for schools that are already in operation, to service the debt on the construction financing for many of these schools and to support educational programs at schools throughout the County. The District is committed to updating and upkeeping all schools in a condition that meets the needs of the students and provides benefit to the communities. The District believes that this plan fulfills condition #8 of the CCC Settlement Agreement with regard to the equitable allocation of capital outlay funds.

## **10 AND 20 YEAR PLAN**

Over the next 10 and 20 years, there are many capital funding needs in the Broward County School District. The District will continue to assess and evaluate the capital needs in its determination to renovate, update and modernize its facilities.

## District Educational Facilities Plan Reserve Activity

### Reserves

The District sustains reserves to stabilize the SMART Program and other projects in the DEFP.

These reserves protect ongoing projects over the duration of the SMART Program so that changes in the economic environment and other risks are mitigated. There are SMART reserve funds the Board previously identified to be set aside for the SMART Program. These reserves are shown on the Appropriations page, and details of the approved transactions that impact the reserve funds are shown in this Appendix section.

Total SMART Reserve

\$225 million	SMART Reserve established FY 2018
\$211 million	COPs Series 2020A
\$ 47 million	PMOR Allocation (FY21, FY22, and FY23)
\$ 29 million	SMART Program needs (FY22)
\$ 46 million	SMART Program Needs (FY24 and FY25) (Accelerated in FY23 DEFP)
<u>\$133 million</u>	GOB Premiums
<b>\$691 million</b>	

The capital budget also includes an unallocated reserve that can be used for future SMART Program budget impacts. Additional allocations to the SMART Program require the Board's approval, and all future amounts are subject to change based on economic
