

Medical Magnet Students, receive instruction in biology, chemistry, physics, and anatomy and physiology in tandem with magnet-themed course work; including but not limited to research-pathophysiology, biomedical engineering, forensics, clinical medicine, biotechnology, and microbiology.

The Biomedical Science Pathway, offers students a solid academic and experiential foundation that positions them well to pursue Undergraduate and Technical training in Allied Health, Biomedical Science, Biomedical Engineering, Nursing, and Veterinary Science.

Medical Magnet Students, learn the value of working as members of a health care team in the class setting as well as through Cooperative Learning (Co-op) experiences.

Medical Magnet

Required Coursework

- Principles of Biomedical Science
- Human Body Systems
- Medical Interventions & Genetics
- Biomedical Innovations & Forensics
