

**Art and Culture
Center/Hollywood**

In-person or Virtual Field Trips

The Art and Culture Center/Hollywood Has You Covered!

Bring your students to the Center to enjoy an immersive tour of our contemporary art* galleries. Afterwards the students become the artists, creating their own work of art to take home! We will also provide you with a list of resources and suggested activities, connecting the experience back to learning in the classroom.

Is a virtual experience better suited for your needs? The Art and Culture Center offers a wide selection of interactive lessons connecting core subjects to the arts. Provided through BECON and tied to Florida's B.E.S.T Standards, the lessons allow students to ask questions and share their wonderings while emboldening them to Create More Art!

Connect with our Education Department for more details or discuss possibly forming a partnership with us.
