SUBJECT: **2022-2023 BROWARD COUNTY PUBLIC SCHOOLS COGNIA SURVEY RESULTS**

This memo summarizes the end-of-year Cognia survey participation for students, staff, and parents. Each year, the School Improvement Office coordinates the Broward County Public School (BCPS) Stakeholder Surveys for parents, students, and staff to gather information regarding school climate, perceptions concerning school improvement, and student achievement. Charter schools do not take the Cognia survey. Students in grades 3-5 and students in grades 6-12 each take their version of the student survey with questions appropriate for their level. Teachers and non-instructional staff respond to the same staff survey. Parents have their version of the survey with questions intended to gain family perspectives. All participants completed surveys via the Cognia Survey instrument.

In prior years, two surveys were conducted: one with questions about customer satisfaction and one about school climate. Based on stakeholder feedback these two surveys were combined into one survey for the 2022-2023 school year. A team of BCPS experts from the Research, Evaluation, and Accountability and Equity, Diversity, and School Climate Departments collaborated on the new survey design. The goal for the survey team was to create a survey that would provide a comprehensive evaluation of the attitudes and perspectives of survey participants. The team reviewed all questions from previous surveys and developed one combined survey for each group of participants. The team met regularly over the course of two months to write new survey questions and refine questions to increase response accuracy and relevance. The team incorporated stakeholder feedback throughout this process and aligned the new surveys to the 2022-2027 Strategic Plan Guardrails: Safety, Equity, School Support, Wellness Support, and Accountability. Final drafts of each survey were reviewed by the Strategic Initiative Management department to ensure that questions were closely aligned to each of the Strategic Plan Guardrails.

The Cognia survey results aid schools in the school improvement planning process. Survey results link the Cognia Accreditation Standards to each school’s annual School Improvement Plan (SIP) by embedding the survey ratings into the plan. Schools must provide school improvement activities that will increase the school’s environment and quality of services. Each year, the School Improvement Office trains schools in the survey process and in the generation of survey result reports from the Cognia website. After the completion of the survey process, schools present the survey reports to stakeholders at their School Advisory Council (SAC) meetings.

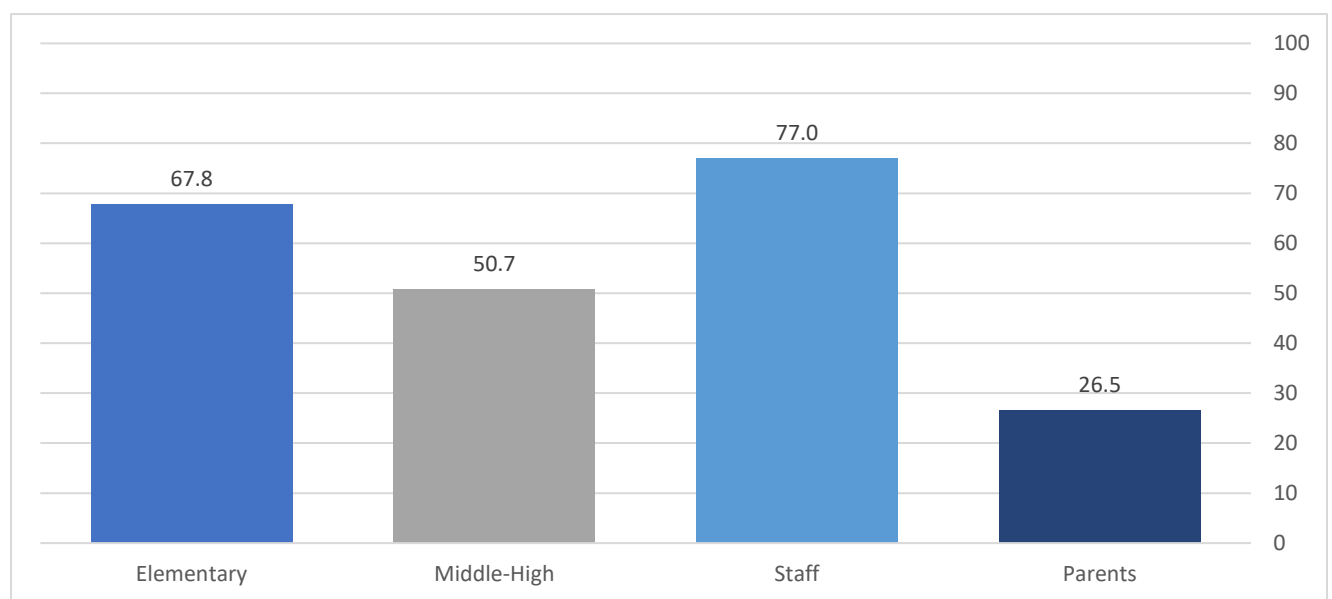

Participation

The number of elementary student (grades 3-5) responses in 2022-2023 was 29,026 out of a possible 42,816. The number of middle-high school students in 2022-2023 was 58,468 out of a possible 115,408. The number of parent responses in 2022-2023 was 38,698 out of a possible 145,791. The number of staff responses in 2022-2023 was 13,427 out of a possible 17,444 (See Figure 1).

The response rates for the 2022-2023 school year were 67.8 percent for elementary school students (grades 3 through 5), 50.7 percent for middle-high school students (grades 6 through 12), 77.0 percent for staff, and 26.5 percent for parents.

Results

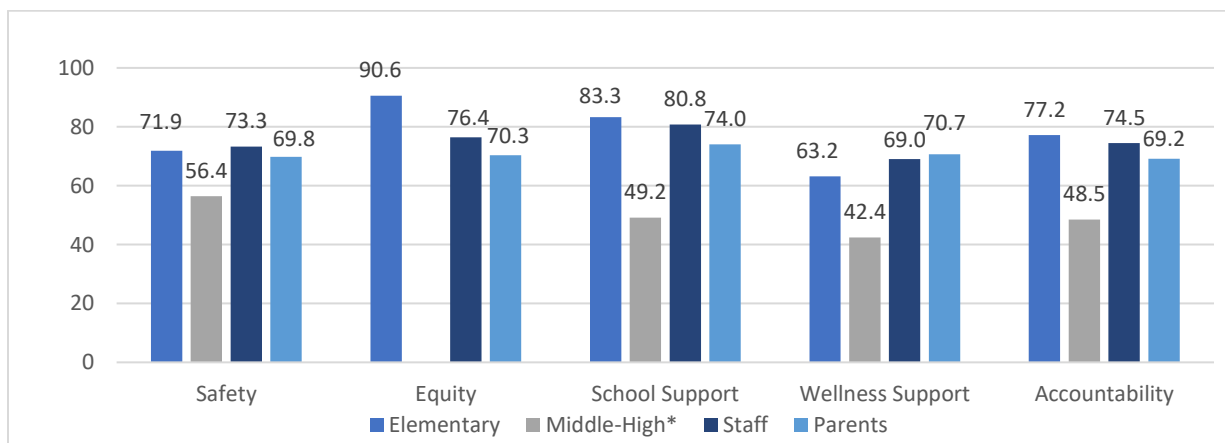

In the 2022-2023 school year, BCPS conducted the Cognia survey to assess the impressions of the BCPS school system among students, teachers, non-instructional staff, and parents. Although each group of respondents received different survey questions, they were all asked questions that included a wide variety of topics including safety, equity in the allocation of resources, access to wellness resources, accountability in leadership, supports available to families, and student learning. This year, for the first, time questions were written in two different formats. One set of questions were crafted as positive statements to which participants expressed their degree of agreement or disagreement on a 5-point scale. The other set of items were questions about specific topics and provided multiple answer choices for participants to select. The full text of each survey statement as well as the district responses for 2022-2023 appear in Appendix A. Due to the nature of the multiple-select questions the percentage of responses for each answer choice will not be analyzed in this memo, but full details will be available in Appendix B.

Positive Statements

The graph in Figure 2 illustrates the percentage of agreement or strong agreement from each group, regarding positive statements made about each domain.

Figure 2

Average Percent Agreement within Each Domain for Elementary School Students, Middle-High School Students, Parents, and Staff 2022-2023.

*Note. Equity on the Middle-High survey could not be evaluated due to items that did not assess customer satisfaction. As a result, the percentage of positive responses could not be calculated and reported.

Elementary school students' satisfaction with their school environment was high, with most students agreeing with the positive statements made about their school in 2022-2023. Elementary school students rated their school's *Equity¹ and School Support* the highest among the five domains, with *Safety and Accountability* similarly rated. The statement met with the highest agreement was, "My teachers want every student to learn." There were only two statements that fell below 40 percent agreement, which were: "I enjoy eating food prepared by the cafeteria," with 33.4 percent agreement, and "My teachers ask me what I think about school" with 38.3 percent agreement. Most other positively worded statements were met with satisfaction by elementary school students.

Middle and high school students answered questions with moderate agreement. However, on average, students were satisfied with items related to Safety. For example, 64.7 percent of middle and high school students agreed with the statement, "I feel safe getting to and from school." There were three statements that middle and high school students were least likely to agree with which include: "My school is clean and well-maintained" with 25.3 percent agreement, "In my school, students treat each other with respect," with 25.1 percent agreement, and "I enjoy food prepared by the cafeteria" with 17.2 percent agreement.

Instructional and non-instructional staff reported high levels of satisfaction across the five domains. Like other groups, BCPS staff rated *Equity¹ and School Support* the highest compared to the other domains. In 2023, staff were most likely to agree with the statement, "If students have a problem, they can come to me for help" with 94.4 percent of staff agreeing or strongly agreeing with this statement. One of the items with the lowest agreement was, "I schedule conferences to share student learning progress with families," with only 25.0 percent of staff positively responding to the statement.

Most parents agreed with the positive statements made about their child's school environment. Parents were most likely to agree with the statement under the *Safe and Supportive Environment* category, "Phone calls to the school are answered in a polite and respectful manner by the office staff." The statement that met with the least agreement was, "Our school has a family resource center and/or a staff member assigned to work with families," with 45.2 percent of parents agreeing or strongly agreeing with that sentiment.

¹ The Equity domain on each survey was evaluated with a singular positively worded statement. Other domains were assessed with multiple questions.

Summary

These survey results show that in general, satisfaction with the BCPS system is high for students, staff, and parents. Elementary school students highly rated items associated with school support. Staff responses indicated high levels of satisfaction in all areas with school support being the highest. Parent responses also showed high levels of satisfaction in all domains with school support and accountability being the highest rated categories. The results from the 2022-2023 Cognia survey are largely positive and will provide insight into how the district can better serve the needs of students, families, and staff. For a full description of how each group responded in each of the five domains, please see Appendices A and B.
